

天河水务

WND 型污泥斗

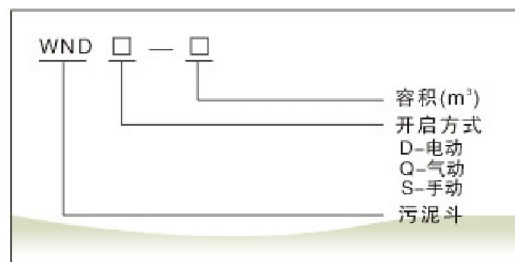

TYPE-WND Sludge hopper

● 用途 Applications

主要用于污泥脱水间，收集脱水后的泥饼并储存在泥斗内，达到一定容积后，打开污泥斗下部的电动阀门，将泥饼卸至卡车上运走。

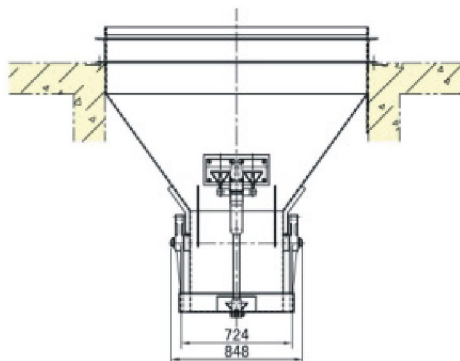

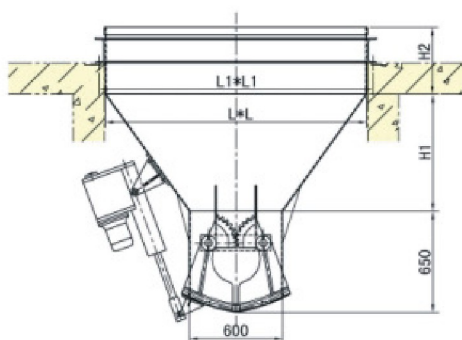

It is mainly used in sludge dewatering shop to collect and store the sludge cake. When the storage exceeds a certain cubage, the electric valve is open and the sludge cake is discharged to the truck and is carried away.

● 型号示例 Type and Its Indication

● 技术性能参数及外形尺寸表 Technical Parameters Shape and Size

参 数 容积(m³)	电机功率 (kW)	L (mm)	L1 (mm)	H1 (mm)	H2 (mm)
2	0.75	1680	1760	450	450
3	0.75	1680	1760	800	800
4	1.1	2000	2080	1000	700
5	1.1	2000	2080	1000	950
8	2.2	2500	2580	1250	1000
10	2.2	2500	2580	1250	1300

● 订货说明 Requirements for Order

1. 注明主体材质，未注明按碳钢普通防腐制作。
2. 若需要其它非标规格的污泥斗，请注明图中各项尺寸，我公司按图加工。
3. 若污泥斗下部需要支撑架体支撑时，请注明出料口至地面的最低高度。

1. Note the material of the principal equipments. Consider normal carbon steel anticorrosion without note.
2. If other non-standard specification sludge bucket is needed, please note the sizes of every part in the drawing. We will process according to the drawing.
3. If the lower part of the sludge bucket needs support, please note the smallest height from the discharge port to the ground.
